TRAINING COURSE

INDUSTRIAL ENGINEERING, QUALITY CONTROL AND MANAGEMENT

Course: QMS/EMS Implementation and Control

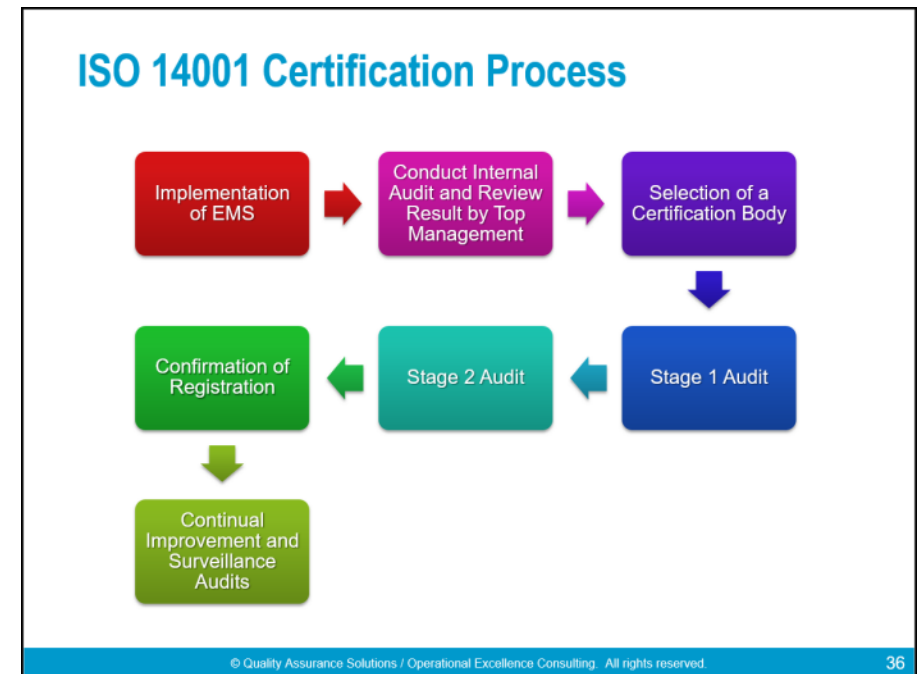

Partner: P4 – University of Zagreb Faculty of Textile Technology

Assoc. Prof. Sanja Ercegović Ražić, Ph.D.

Lecture plan:

Certification process for confirmation of compliance with requirements of ISO 14001

- Third-party certification is performed by a registered third-party testing organisation, usually referred to as Certification Body (CB).
- An expert third party audits EMS for compliance with all elements of ISO 14001 The certification process is a multi-step process.
- Organisations planning to be certified must hire a CB in advance and typically provide 3 months of implementation evidence prior to certification.
- The cost of certification can vary for companies of different sizes and risks to the environment, as well as for certification bodies.

Lecture plan:

Certification process for confirmation of compliance with requirements of ISO 14001

Certification of EMS

- Confirmation of compliance with requirements of ISO 14001
- certificate of conformity
- logo
- According to [ISO 19011:2018](#) (Guidelines for auditing management systems)
